PROFESSIONAL SUMMARY

Team Lead with 4+ years of experience building **performant, scalable** web apps using **React, Angular (v7–v14), Redux Toolkit**, and **Node.js**. Skilled in **architecture revamps, modular UI systems, CI/CD**, and **Lighthouse optimization**. Known for **collaborative leadership** and fast, **accessible interfaces**.

EXPERIENCE

Anchanto

Apr 2024 – Present

Senior Software Engineer – UI, Pune

- **Spearheaded** Angular upgrade from **v7 to v14**, modularized SCSS, and introduced **shared component libraries**; reduced build time by **95% from 45 minutes to 4 minutes**.
- **Mentored 3 engineers** on best practices in **code quality, accessibility, and state management**.
- Implemented **GDPR-compliant RBAC** for 500+ users, improving **auditability and security**.
- Used **Chrome DevTools** to resolve bottlenecks and raised **Lighthouse scores to 95+**.
- Built a **dispatch scheduler** in **Node.js + BullMQ** for auto-processing every 15 minutes with retries.

Anchanto

May 2021 – Apr 2024

Software Engineer – UI, Pune

- Developed **Approval Module** in **React + Redux Toolkit**, reducing **turnaround time by 60%**.
- Revamped **Catalogue Listing Module** with **dynamic schema validation**; cut tickets by **73%**.
- Designed **warehouse packer/picker flows** for mobile apps; improved task time by **30%**.
- Integrated **Crowdin for localization** and deployed **RTL Arabic interface** for MENA region.
- Designed the user interface for the core Warehouse module, implementing key routing rules. This feature is actively used by over 50 customers, enhancing operational efficiency.

PROJECTS

Sahitya – GitHub for Authors (2019)

React, Redux, Tailwind, Node.js

- **Collaborative writing platform** with **version control, user roles, and moderation workflows**.
- Achieved **90+ Lighthouse performance** using **Webpack and Babel**. **Test coverage 80%+** (Jest).

Netflix GPT - AI-Powered Movie Recommendation Platform (2024)

React, Redux, Tailwind, Node.js

- Developed a full-stack application integrating **OpenAI's GPT** with Netflix's UI to deliver **personalized movie recommendations**, enhancing user engagement through AI-driven content discovery
- Architected the application using **React + Redux Toolkit** for state management and **Firebase** for authentication, implementing secure user data handling and real-time updates
- Engineered a responsive UI with **Tailwind CSS** and deployed via **Firebase Hosting**, achieving **90+ Lighthouse performance** scores and implementing automated CI/CD pipelines

EDUCATION

Birla Institute of Technology, Mesra

2017 – 2021

Bachelor of Engineering (IT) CGPA: 8.1 / 10

TECHNICAL SKILLS

- **Languages:** TypeScript, JavaScript, HTML, CSS, SCSS
- **Frameworks:** React, Angular (v7–v14), Redux Toolkit, Node.js
- **Tools:** Webpack, Babel, Vite, Parcel, DevTools, Crowdin, Git, Linux
- **Testing/DevOps:** Jest, AWS Amplify, GitHub Actions, EC2, NGINX

ACHIEVEMENTS

- **1st – CodeAsylums Hackathon 2.0 (2019)**; featured on Progate blog.
- **Finalist – Bournvita Quiz Contest** with Derek O'Brien.
